PROJECT: EASYSHARE TESTING DOCUMENT

1. Test Plan

- **Objective:** Ensure all modules of EasyShare function correctly, meet requirements, and are free of critical bugs.
- **Scope**
 - ❖ Login & Authentication
 - ❖ Folder and File Operations
 - ❖ Visibility Permissions
 - ❖ Deleted File Management
 - ❖ Help Page Accessibility
- **Out of Scope:**
 - ❖ Mobile responsiveness testing (covered in separate UI QA)
 - ❖ Performance/stress testing

2. Test Environment

- **Frontend:** Bootstrap 5, EJS
- **Backend:** Node.js + Express
- **Database:** PostgreSQL
- **File Handling:** Multer (memoryStorage)
- **Session Management:** express-session

3. Test Cases

3.1. Login and Authentication

Test Case ID	Description	Steps	Expected Result	Status
TC001	Valid login	Enter correct credentials and click login	Redirects to home page	✓
TC002	Invalid login	Enter wrong password	Displays "invalid credentials"	✓
TC003	Session timeout	Remain idle past session expiry	User is logged out	✓
TC004	Access restricted page without login	Open /home without logging in	Redirect to login page	✓

Table 1 (Test case 1): Login and Authentication

3.2. Folder and File Operations

Test Case ID	Description	Steps	Expected Result	Status
TC010	Create a folder	Enter name → click "Add Folder"	Folder appears in the list	✓
TC011	Delete a folder	Select folder → click "Remove Folder"	Folder disappears from the list	✓
TC012	Upload file	Chose folder → click "+" → Use file input to upload a file into a folder	File is listed in the folder view	✓

PROJECT: EASYSHARE TESTING DOCUMENT

TC013	Move file	Select file → choose new destination folder	File no longer in old folder, visible in new	✓
TC014	Search folder/file	Use search bar	Relevant results are displayed	✓

Table 2 (Test case 2): Folder and file operations

3.3. Visibility Permissions

Test Case ID	Description	Steps	Expected Result	Status
TC020	Set file/folder as visibul for someone	Select  → add a check to the user who will see the file/folder	Folder/file visible only for chossed user	✓
TC021	Set file/folder as unvisibul for someone	Select  → remove a check to the user who you want not see the file/folder	Folder/file invisible only for chossed user	✓
TC022	Set file/folder as visibul for more users	Select  → add a check to the users who will see the file/folder	Folder/file visible only for chossed users	✓
TC023	Set file/folder as unvisibul for more users	Select  → remove a check to the users who you want not see the file/folder	Folder/file invisible only for chossed users	✓

Table 3 (Test case 3): Visibility permissions

PROJECT: EASYSHARE TESTING DOCUMENT

3.4. Deleted File Recovery (Admin)

Test Case ID	Description	Steps	Expected Result	Status
TC030	Admin views deleted files	Log in as admin → open Cash File panel	Deleted files list is shown	✓
TC031	Admin restores a deleted file	Chose file(s) who restore → click restore button (↺) → choose new destination folder	File returns in new destination folder	✓

Table 4 (Test case 4): Deleted file recovery (Admin)

3.5. Help Page

Test Case ID	Description	Steps	Expected Result	Status
TC040	Access Help page	Click "Help" in navbar	Help content is displayed properly	✓

Table 5 (Test case 5): Help Page

4. Test Data

PROJECT: EASYSHARE TESTING DOCUMENT

➤ Users:

- ❖ username: "admin" password: "admin123"
- ❖ "username": "john", "password": "johnpass"

➤ Folders:

- ❖ name: "Projects"
- ❖ name: "Confidential"

➤ Files:

- ❖ filename: "design.pdf", folder: "Projects"
- ❖ filename: "budget.xlsx", folder: "Confidential"

5. Bug Reporting Process

➤ Tool: GitHub Issues / Jira

➤ Bug Report Fields:

- ❖ Title
- ❖ Steps to Reproduce
- ❖ Expected Result
- ❖ Actual Result
- ❖ Priority (Low/Medium/High)
- ❖ Assigned Developer
