PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

1. Introduction

EasyShare is a web-based file management system designed to help you securely organize, access, and control files and folders. It supports fine-grained access permissions, user-friendly navigation, and administrator tools for file recovery.

2. Getting Started

2.1. Logging In

The login page is displayed within a green-bordered frame. At the top center is the Global RTS logo, which consists of a stylized globe under a canopy with the text 'GLOBAL RTS' below it. Below the logo are two input fields. The first field is labeled 'Enter Username' and has a user icon to its left. The second field is labeled 'Enter Password' and has a key icon to its left. Below these fields is a green button labeled 'Login' with a right-pointing arrow icon.

Figure 1: Login page

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

- Visit the login page (<https://bunker.bg> or <https://bunker.bg/login>)
- Enter your username and password
- Click *Login*

2.2. Authentication

Verification Code

Enter the 6-digit code use QR code

 Your code

Verify

Figure 2: Authentication page

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

- Scan the QR code with (Google, Microsoft or your choice of) authenticator
- After scanning the code, enter the 6-digit secret code provided by the authenticator
- Click *Verify*

Note: Only authenticated users can access the system. Your session remains active unless you log out or become inactive for an extended period.

3. Using the Home Page

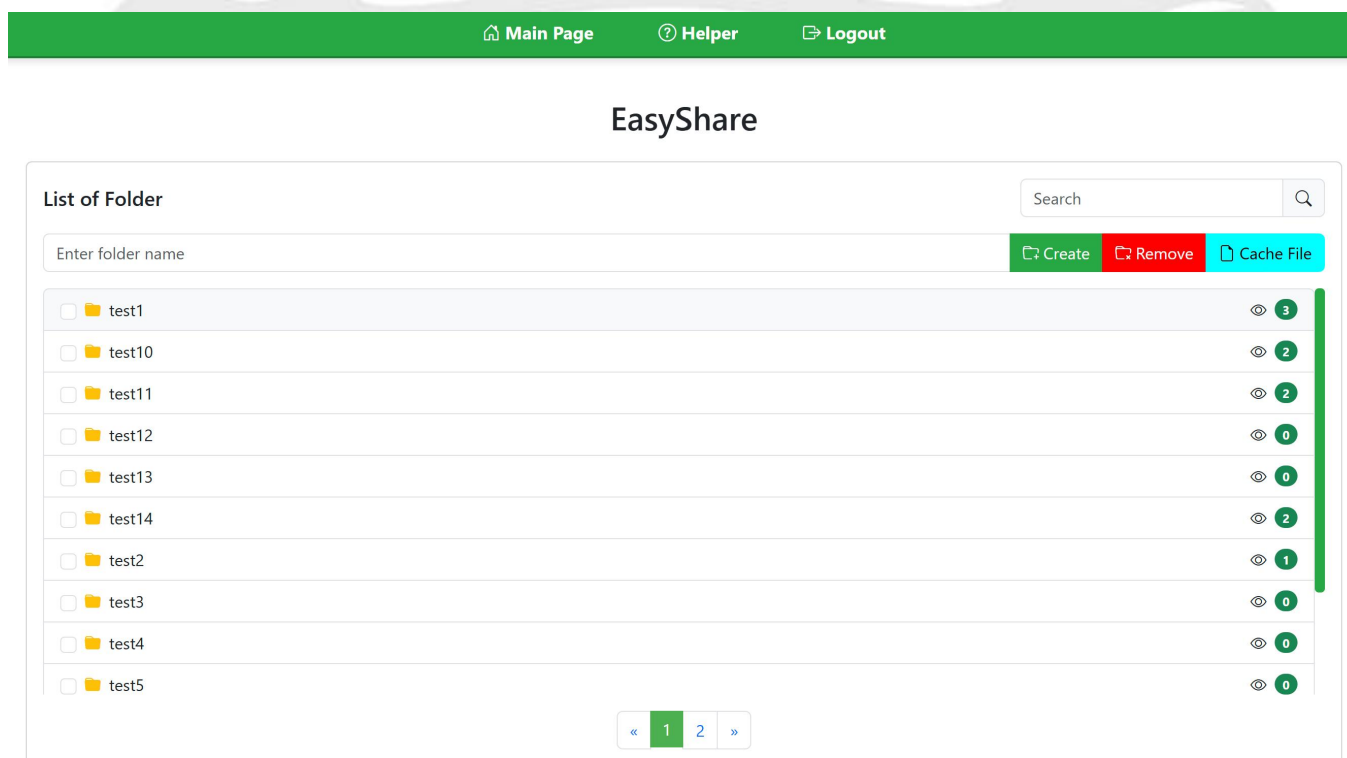

Figure 3: System home page (administrator)

The home page (Figure 3) is the main dashboard for managing your content. Key features:

- **Create Folder:** Enter folder name, then click the  **Create** button.

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

Note: Folders with the same name cannot be created. Allowed characters for folder names are: a-z, A-Z, -, _, 0-9, space, tab

- **Delete Folder:** Mark the folder(s) you want to delete using the checkbox to the left of the row with the corresponding folder and press the  **Remove** button.

Note: Folders containing sub-folders and/or files cannot be deleted.

- **Search Folder:** In the **Search** field, enter the folder you are looking for or a close name to the real one and the system will provide all matches automatically as you type.
- **Visibility rights:** On the folder line for which you want to set visibility rights for a given user, click the button  (to the right of the line), then set the rights as shown in the section [5.Visibility Permissions](#)
- **Restore File (only for administration):** Select the  **Cache File** button and then from the list of deleted files (Figure 8) restore the file(s) as shown in section [6. Restoring Deleted Files](#)

Note: Any newly created folder by any user on the system will automatically have visibility rights set for the administrator, and he can set rights for all users. Ordinary users will only be able to set rights for the folders they have created.

4. Managing Sub-Folders and Files

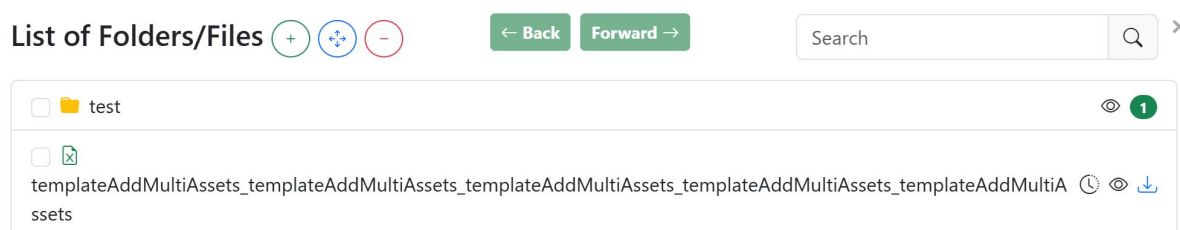

Figure 4: List of sub-folders and files

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

4.1. Creating sub-folders

Add File or Folder

Upload Type *

☐ Add File ☒ Add Folder

Folder Name *

Folder name

Add folder

Figure 5: Add file or folder (Add Folder)

- Use the + button at the top of the window (Figure 4).
- Select the radio button to point to **Add Folder** (Figure 5).
- Enter the name of the sub-folder and click the **Add Folder** button.

Note: Sub-folders with the same name cannot be created in the same folder. Allowed characters for sub-folder names are: a-z, A-Z, -, _, 0-9, space, tab.

4.2. Uploading Files

Add File or Folder

Upload Type *

☒ Add File ☐ Add Folder

Drag & drop files here or click to select

Figure 6: Add file or folder (Add File)

- Use the + button at the top of the window (Figure 4).
- Select the radio button to point to Add File (Figure 6).
- Use the drag and drop method or select the file(s) you want to upload to the folder/sub-folder.

Note:

- If the file you are trying to upload matches the type and name of an existing file in the folder/sub-folder, the old file is replaced with the new one.
- Allowed characters for file names are: a-z, A-Z, -, _, 0-9, space, tab.
- The types of files you can upload and the maximum size for them are described in the table:

File type	Max file size
PDF	10MB

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

DOC	10MB
DOCX	10MB
XLS	20MB
XLSX	20MB
CSV	5MB
JPG	5MB
JPEG	5MB
PNG	5MB
DWG	100MB

Table 1: Allowed types and maximum size

4.3. Deleting sub-folders/files

Mark the sub-folder(s)/file(s) you want to delete using the checkbox to the left of the row with the corresponding sub-folder(s)/file(s) and press the - button (Figure 4).

Note: Sub-Folders containing sub-folders and/or files cannot be deleted.

4.4. Moving Files/Sub-folders

Mark the sub-folder(s)/file(s) you want to move using the checkbox to the left of the row with the corresponding sub-folder(s)/file(s) and press the ➡ button (Figure 4) and select a new folder/sub-folder.

Note:

- If the file you are move matches the type and name of an existing file in the new folder/sub-folder, the old file is replaced with the new one.
- When moving a folder, you also move the folder's contents.
- You can move and remove folders and files combined (move and delete both or just one of them)

PROJECT: EASYSHARE USER & SUPPORT DOCUMENTATION

4.5. Search for sub-folders/files

In the **Search** field, enter the sub-folder/file you are looking for or a close name to the real one and the system will provide all matches automatically as you type (Figure 4).

4.6. Setting Visibility rights on sub-folders/files

On the sub-folder/file line for which you want to set visibility rights for a given user, click the button  (to the right of the line), then set the rights as shown in the section [5.Visibility Permissions](#).

4.7. Additional file functionality

- **Last modified file:** Hover over each file icon 
- **Download file:** Click the button  of the file you want to download

5. Visibility Permissions

List of Users

☐ Test☐ Test1

Figure 7: List of user who view folder/sub-folder/file

- To set/revoke visibility rights on a given folder/sub-folder/file, check/unchecked the checkbox with the user name (Figure 7).
- In the **Search** field, enter the user name you are looking for or a close name to the real one and the system will provide all matches automatically as you type (Figure 7).

6. Restoring Deleted Files (Admins Only)

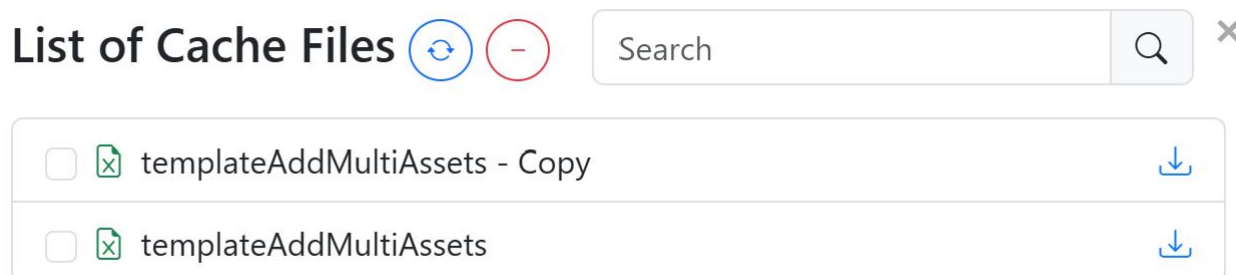

Figure 8: List of cache files

- To restore file/files, check the box of the files you want to restore and select the button  and specify the folder where you want to restore the file (Figure 8).
- To permanently remove a file/files, check the check box of the file you are deleting and press the button  (Figure 8).
- In the **Search** field, enter the file/files name you are looking for or a close name to the real one and the system will provide all matches automatically as you type (Figure 8).
- To download file click the button  of the file you want to download

Note: If the file you are restore matches the type and name of an existing file in the selected folder/sub-folder , the old file is replaced with the new one.

7. Help Page

Accessible from the top navigation bar:

- Quick tips and brief tutorials
- Step-by-step instructions for common tasks

PROJECT: EASYSHARE

- Definitions of icons and controls

8. FAQ

Q1: I forgot my password. What should I do?

A1: Contact the system administrator to reset your credentials.

Q: How do I share a file with someone?

A: Set the file visibility, view [5. Visibility Permissions](#)

Q: Can I upload multiple files at once?

A: Yes, you can select multiple files during the upload process, view [4.2 Uploading Files](#).

Q: Why can't I see a folder someone else mentioned?

A: You may not have visibility permission. Ask the folder owner or admin.

9. Getting Support

For technical issues:

- Contact: office@global-rts.com
- Include:
 - ❖ Username
 - ❖ Error description
 - ❖ Screenshot (if applicable)
 - ❖ Support hours: Mon–Fri, 8 AM – 5 PM
